Dear The Federal Communications Commission,

Congratulations on your appointment to Chair the FCC. In your new leadership role, I urge you to support the "Fair Share Plan" as a solution to current concerns with the Universal Service Fund (USF). The Fair Share Plan will keep the USF fair, ensuring that consumers like me do not pay the same rate into the USF as big businesses, regardless of how little I may use long distance.

The Keep USF Fair Coalition submitted the Fair Share Plan to the FCC on January 31, 2005. It expands who pays into the USF so that other technologies - not just phones - pay into the system. The Fair Share Plan collects the USF using a combination numbers- and revenue-based plan. This keeps the system fair, equitable and non-discriminatory.

Under the flat fee or numbers-based plan you are considering, people like me who make few long distance calls would pay the same as people or businesses that make many calls. I believe it would be unfair to charge low-volume and residential customers the same fees as high-volume residential or business customers.

I urge you to keep the USF fair, and adopt the Fair Share Plan. Thank you, and best of luck in your new position.

Dear mr.Chairman

I am 13 years old and i can only have a trac fone if i pay for my minutes. I dont have much money to be spending on minutes so i defiantly dont want the price for them to go up.I love my tracfone and have recomend that other people get one as well. I dont like paying 18 dollers for 40 minutes but i most certainly do not want that price to be raised. I know people who i have recomend a tracfone to who will be very dissapointed in hearing that u may raise the prices and will switch to a monthly plan.I will myself choose to switch to a monthly plan. You will cause trac fone to loose money as well as respect. I am glad to say that i own my very own trac fone but if you chooose to raise the prices i will be ashamed to say that u can call me, but i cant talk long because of some stupid price raising. Please dont raise he prices and if you do anything to the prices lower them, i will buy many more minutes which i think in time many people will which will be more beneficial in the end. Well thank you for your time that u have taken to read my e-mail. I ask you to reconsider raising the prices for the minutes i have to buy with my own money.

Sincerely,
